

1.Sister Of Father in Law

Her brother is arun's father-in-law ,So she is the sister in law

2.1941

5

$$5*3+6=21$$

$$21*3+6=69$$

$$69*3+6=213$$

$$213*3+6=645$$

$$645*3+6=1941$$

3.All answers are correct Those have submitted

```
#include <iostream>
```

```
using namespace std;
```

```
int main() {  
    double radius, height;  
    //declare type of integer  
  
    cout << "Enter the radius of the base of  
the cone: ";           //Enter  
output  
  
    cin >> radius;  
    //Enter value of radius  
  
    cout << "Enter the height of the cone: ";  
    // declare height of  
  
    cin >> height;  
    //enter value of height
```

```
double volume = (1.0/3) * 3.14 * radius *  
radius * height;           //
```

Calculate the volume of the cone

```
cout << "The volume of the cone is: " <<  
volume << endl;           //Output the  
volume of cone
```

```
return 0;  
}
```

Logic same For all Language only syntax will
be change

4.Dear Mr. Smith:
